Reports Menu

Ver. 2012

Overview

The Report menu contains an extensive collection of reports for a wide variety of applications. Several of the reports contain user-input screens to help you fine tune your output.

The extensive amount of reports is the result of our users' requests for their particular parish situation. When a suggestion benefits a wide range of parishes, it is included in the next release. You are encouraged to submit suggestions for improvements at any time, and we welcome them.

NOTE: Religious Education reports are found in the Religious Education Menu only. There are many other reports available within certain applications and are not duplicated here.

As with all printed material in the Census program, all reports go directly to the screen first for your review. This is to save paper, and in some instances, you may want to just see the results without actually printing them.

As mentioned elsewhere, the Family (envelope) number assigned to each family is one of the major control fields which regulate who is included in each report.

Some of these reports are supported by input from other areas of the Census program. It may be necessary to direct you to a particular point in another manual, or can be found on screen. This format will be used to help you find the reference point.

Religious Education > Catechists > Lists of Catechists

In the above example, the first word in the line is the **button** from the Main Menu. Each step is followed by > which means to locate a **tab or button** which will bring you to the next step. The last word or phrase in the line is your destination.

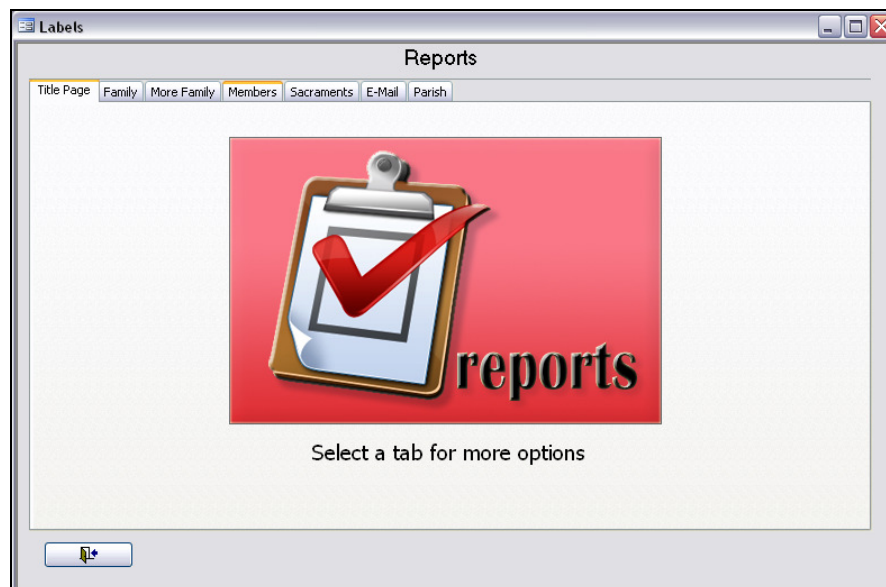

A final note: All reports generated by the Census System contain the following footer. It contains our name, the date it was generated, and the page number with total pages.

3310	Mr. & Mrs. Michael Cave 69 Redwood Rd. MyTown, MA 11025		Tina	413-555-1212	N

Ver. 2012

The Parish Book is the complete alphabetical listing of the parish families within the Family Number range stated. Notice the capital C to begin this set of names. Where they are entered, the secondary name and spouse's first name is included in the report. Notice also the telephone number is listed as "Y" to show it is marked as an unlisted number. Although not shown, the first page of the report contains your parish heading.

Parish Book: short (landscape)

Parish Book: short (landscape)	Prints in alphabetical order all families with an envelope number less than the Inactive - Mail End number on the parish screen, this is one line per family landscape.
---	---

Ver. 2012

This report is printed in Landscape format to save paper and contains less information (Secondary names are not included). Each family is printed on a single line. Notice in the example that an address is missing (blank). Since the record does not contain the address, it is not on the report.

As stated above, the first page contains your parish heading.

Ver. 2012

This report gives you the family number, name and address of the family with telephone number.

Notice the heading circled: “**Date Family Number Changed**”. The Census program allows you to change the Family Number for a variety of reasons. If the number has been changed, the date is recorded and displayed here.

Notice also at the bottom of the report the **Total Families** listed in the report is displayed. This is for your convenience.

Ver. 17.5

The Family Number, name, complete address and telephone number are displayed at the top of each record. Also shown is *Member Since*. If this is filled in on the Family Page it is displayed here.

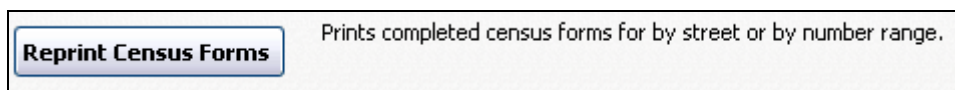

Following this heading all the family members are listed. Notice to the left of each name there is another number. This is the **Member Number**, which is assigned by the program to each member as they are entered into the system. This is a *unique internal control number* and *cannot be changed*. This helps the program to sort and control membership within each family since names are easily duplicated.

In addition to each name, the following is displayed: Relationship to Head of Household, Gender, Date of Birth, are they confirmed (Y/N), were they married by a priest (Y/N), and date deceased, if applicable.

This report allows you to see an entire family at a glance.

Reprint Census Form

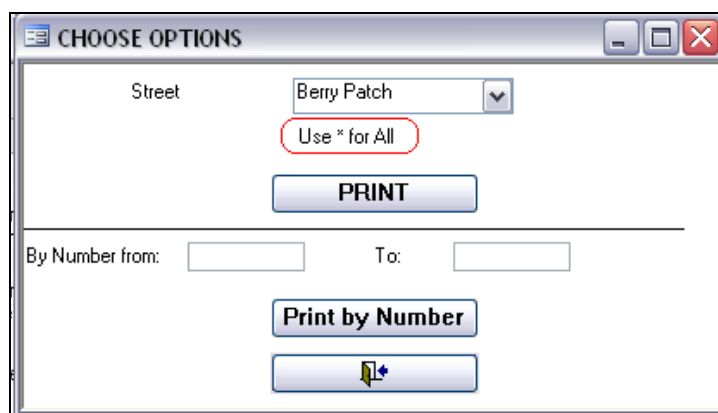

Periodically each parish will want to update their membership records. This utility will reprint family/member information on a pre-formatted census form. This form is mailed to each household for verification. It is then returned to you for processing.

Ver. 2012

Reprinting census forms for an entire parish is a daunting task. When developing this utility, we took into consideration many factors including: the time it takes to print everyone at once, being interrupted during the process, running out of paper or having a paper jam, and running out of ink/toner. To help you perform the task this option screen was created.

Clicking this button opens this screen which gives you three options:

Ver. 2012

BY STREET: SELECTED: From the drop-down menu, select the street you wish to process. All the families on that street will have their Census forms displayed, then printed.

USE * FOR ALL: Placing a * in the **Street** field and clicking **PRINT** will display on the screen all the families in the parish alphabetically. Depending on the size of the parish and the speed of your printer, this could take some time. Use this option carefully. This option could be of value if you want to view the records on screen without actually printing them.

Print by Number: Using family numbers choose a range and enter them into the **By Number from/To** boxes and press Print. The report will display on the screen. This is an easy way to control your time and resources.

As with all reports, once a report is on screen, clicking PRINT from the Taskbar will send the report to your printer.

The following example is a portion of a Census report.

Ver. 12012

The top of the form (which comes under the Parish Letterhead) states Confidential Census Information. Although not password protected, the information contained in these forms must be considered confidential. Caution should be used when selecting the people having access to this information.

Notice the top record is the family information. Some of the fields are blank. Any missing information is not present in the system.

The second record is the first member's record containing the information on their member's page.

PLEASE NOTE: your individual situation may require more information from your parishioners. The forms used here are typical of the basic information you may need. Although these forms cannot be altered, you may choose to create an additional page to send along.

Blank Census Form

This provides a basic layout for registering a new family in your parish. This form cannot be changed. It is typical in design and gives you at least a starting point for your parish registration process.

Families with children

This function analyzes data within the family/member records to produce reports and labels related to children and their participation in the Religious Education parish program, and as a means of contact for other children-related programs (Vacation Bible School, pageants, fund raisers, field trips, etc.).

Families with Children	This allows you to enter a range of birthdates and then print reports and labels with members that have birthdates between those dates. for example for children 6 to 12 enter birthdates 6 years and 12 years less than the current date.

Deleted History

This utility allows you to choose a date range and see all the families who were deleted during that time period. During the deletion process (see below), information including the date of deletion, the initials of the person performing the deletion, the reason for deletion, and the amount in the family's fund account are recorded and placed in an internal history file. This information is included in the Deletion History Report.

Language Selection

In a multi-lingual parish, knowing who can speak the various languages is very useful for a variety of reasons. When a service or a meeting is scheduled these individuals can provide a bridge to the language barriers that can exist. Many cultures are proud of their heritage and would be honored to assist in the use of their languages.

Language Selection

This will list all members who have the language you select as a proficiency or second language.

Unregistered Members

This might seem unusual, but there are times when a person living in a registered household would be unregistered. Some of the reasons could be a non-Catholic spouse, a non-Catholic in-law living with you, a child whose has chosen to follow another path are just a few examples. Other reasons could be a keyboard error where the member's checkbox was missed, or the data for this person is incomplete.

Unregistered members

This will list all members who are not registered, based on the registered member checkbox.

TAB: Sacraments

Sacramental reports are important to the pastor and staff for planning, and to other ministries who organize celebration/memorial services. These utilities do all the work for you by retrieving the required information in an organized manner.

It is important to note that only the data entered into the Census system can be reported. If your information is out of date, so will your reports. We highly recommend that you keep your files current and backups are critical.

Ver. 2012

Marriage

These utilities are for the sacrament of matrimony.

Ver. 2012

Anniversary by Year

This will give you a report on marriages for any given year. Anniversary celebrations can use this report to find participants, and entering the current or previous years will help you determine if all the marriages were entered into the system.

Clicking this button opens this window:

The screenshot shows a window titled "Enter Year" with a teal background. The text "Anniversary Report" is centered at the top. Below it, the prompt "Enter the marriage year:" is followed by a white text input field. At the bottom, there are two buttons: "OK" and a button with a right-pointing arrow and a plus sign.

Parish Status

This is an aid in creating your annual report. Keep in mind that the data is only as good as what was input for the year in the database. For school grades some assumptions are made.

- From the Census Menu choose "Parish Status". This will bring up a form and pre-fill information available on the database.
- You may change any information and add missing information before printing the report. To change the date or refresh the data fill in a year and press UPDATE. PLEASE NOTE: Refer to the lists below. Some information will appear according to the date entered, and some information will appear as of today (current as of today).

Information is gathered on these criteria. Once it is displayed you may change any numbers that are not accurate. There are also a number of fields that will be blank or 0 (such as vocations) for there is no data in the census. These fields may be filled prior to printing the report. All the data entered/changed will remain until the next time you press Update.

All members counted must have a Family Number less than the Deceased/moved starting number.

Information shows for the year entered:

Baptisms: count all members with a baptism year that matches the year you request

First Communion: count all members with a First Communion year that matches the year you request

Boys Confirmed: count all members with a Confirmation year that matches the year you request and age under 19 and sex Male

Girls Confirmed: count all members with a Confirmation year that matches the year you request and age under 19 and sex Female

Adults Confirmed: count all members with a Confirmation year that matches the year you request and age over 18

Marriages: count all members with a Marriage year that matches the year you request

Deaths: deceased date same as the year you entered

Zartarian/Envelope Export Disk

In the late 1990's the Zartarian Envelope Company became a dominant church envelope company in the Springfield Diocese. This company used an online download method to keep church envelope data fresh on a monthly basis. In working with this company the Census program was integrated with their envelope format. This proved to be highly successful in reducing the number of envelope packets being sent to wrong addresses, or being returned as undeliverable.

The good people at Zartarian have given us permission to use their name in our program.

This export is in ASCII format. You may choose to send it to either the hard drive (C:) or to the flash drive.
